## PILGRIMS MEET DEATH.

### Terrible Accident on a Canadian Railroad.

### THIRTEEN OF THE VICTIMS DEAD.

**Twenty-five Others Seriously Injured, and Some of These May Die—The Accident Probably Due to the Carelessness of an Engineer Who Is Dead.**

QUEBEC, July 10.—A terrible accident occurred on the Grank Trunk railway at Crags Roads Station, about fourteeen miles west of Levis, at 3 o'clock in the morning, as the result of which thirteen persons were killed and twenty-five others more or less seriously injured, two of whom may die.

A large pilgrimage from Sherbrooke, Windsor Mills and Richmond had left the latter town for the famous Catholic shrine of St. Anne de Beaupre. The train carrying the pilgrims was divided into two sections, one running a few minutes behind the other. The first section reached Crags Road about 3 o'clock, and stopped at the tank to take water. Due precautions were taken, and the semaphore was thrown to mark "danger" against the following train.

Only the trainmen were astir. The Pullman in the rear was wrapped in silence, the sleepers all unconscious of the terrible fate that was rushing upon them. Suddenly the second section, which had passed the semaphore at full speed, dashed into the rear Pullman of the first section. The engine embedded itself in the sleeper and the latter plunged forward and partially telescoped the next car in front.

Every berth in the sleeper was filled, and many of the occupants were killed as they slept. Others awoke to their horrible surroundings maimed, bleeding and bruised, conscious of little else but the agony that racked them. It was a terrible scene. The cries and moans of the wounded and dying pierced the air on all sides, while as a canopy that served as a veil to the tragedy the steam from the shattered engine rose in clouds that blinded all observation for the time being.

The reason why the second section did not observe the danger signal will probably never be known, as both the engineer and firemen were killed. It is believed, however, that the engineer, McLeod, had fallen asleep at his post. No other explanation seems possible, as there evidently had been no attempt to stop the speed of the onrushing train.

The Pullman conductor, Mr. Moore Wood, had a narrow escape. He had luckily stepped out on the rear platform just in time to see the oncoming train and jump. He thus escaped injury. The engine of the colliding train seemed to rear up, then turned completely over. The rest of the second train was derailed and badly smashed up. In an instant after the crash the air was filled with the shrieks and groans of the injured and imprisoned passengers. The few train hands and station employes on the spot set to work manfully and extricated the passengers as quickly as possible.

Mr N. J. Quinlan, the Grand Trunk passenger agent, who was on the first train, is not seriously wounded, and in conversation with an Associated Press correspondent said he could not say how he escaped death, as the Pullman he was in was completely shivered into splinters. The porter of the Pullman at the time of the collision, Bennett Basler, said he could not account for the accident. At the time, he was putting up a berth in the Pullman. P. McHugh, one of the injured, said he was sitting in the car in front of the Pullman when the accident occurred. He saw the locomotive of the second train coming through his car and he was only saved by a friend.

The arrival at Levis of the train bearing wounded passengers from the scene of the accident beggars description. Hundreds had congregated at the station at Levis and numerous express wagons containing mattresses and pillows were awaiting the arrival of the train. The poor victims were covered with blood and their clothes were torn to shreds.

The scene in the Hotel Dieu after the arrival of the wounded was a sad one. The unfortunate pilgrims all occupied beds in the different wards of the hospital, and were attended by physicians of Levis and Quebec, and nuns and ladies of Levis. The cries of some of the wounded were fearful as they were attended by the physicians.

The dead are: Charles Bedart, mail clerk, Richmond; Miss Bedart, Richmond; Hector McLeod, engineer, Richmond; Richard L Perkins, fireman, Richmond; Rev J T Mercier, Richmond; Rev. F. P. Dignan, Windsor Mills; Mr. Cogan, Richmond; Miss Valin, St. Joseph de Levis; aunt of Miss Valin, name unknown; Miss Phaneuf, St Joseph de Levis; Mrs. J. B Caver, Danville; Miss Delacourte, Sheffield; John O'Farrell, Capleton.

**Saved by a Writ of Error.**

WASHINGTON, July 10.—Judge White, of the United States supreme court, yesterday allowed a writ of error in the case of the state of Mississippi against Charley Smith, sentenced to be hanged today. A stay of proceedings was also granted. Smith is a negro, and claims that members of his race were excluded from the grand jury which indicted him.

**Incendiary Strikers.**

NORTH FORK, W. Va., July 10.—An unsuccessful attempt was made by the strikers to burn the lime and tool house at the Ashland colliery yesterday. Notices were found under the Arlington company's and Ashland company's office doors saying this burning was but a forerunner of what they would do if their demands were not met.

## A REMARKABLE DISEASE.

**It is Puzzling the Physicians at the Pennsylvania State Hospital.**

WELLSBORO, Pa., July 10.—The physicians attached to the state hospital at Blossburg, this county, are trying to solve the mystery surrounding peculiar cases of apparent poisoning that have been brought to their attention. A few days ago Jacob Rymska, of Blossburg, died, presumably, from the effects of a bite from some insect, as he stated that he felt a sting under his eye soon after going to bed. He died two days afterward. Since that time there have been three similar cases in that town, one of them proving fatal. In the case of Rymska the patient's head swelled to enormous proportions and his death was caused by suffocation occasioned by the terrible swelling.

Last week Henry Dyke, of Richmond, was taken to the state hospital suffering from the effects of a poisonous bite on the top of his bald head. His eyes were swollen shut, his head was greatly swollen and it is considered a dangerous case, although he now seems to be improving.

Joseph Wisuski, a workman in the Blossburg tannery, thought he had been bitten on the cheek by a mosquito recently, but the small pimple continued to swell until the man's head was a sight to behold. He suffered terrible pain, but recovered.

The 3-year-old child of Jacob Losiniecki, also of Blossburg, died from the same cause. A small pimple appeared under the child's left eye. Two days later the little one's head was swollen to remarkable proportions, and death followed in great agony.

In all of the four cases mentioned there was a small pimple discharging a watery fluid, and the head of the patient swelled to a remarkable size. In the fatal cases the bodies turned to a dark color almost immediately after death. It is reported that a number of cattle have died in that region lately with the same mysterious symptoms. The people of the neighborhood are excited, some claiming that a poisonous fly has been imported, while others maintain that it is a plague and not the bite of an insect.

**A Corner in Window Glass.**

ANDERSON, Ind., July 10.—The greatest combination the window glass industry has ever known has been consummated. For some time the price of glass has been about as low as it was possible to make it for, caused by very strong competition. During the year just closed twelve companies west of Pittsburg have refused to sell their product, and as a result their warehouses have been filled. The remaining nineteen plants west of Pittsburg have sold their glass and as a result the end of the season found 350,000 boxes of glass in warehouses. The twelve companies that have been working on the quiet had 35,000 of these, and the half of the remaining 20,000 boxes will not be fit to move for breakage and assortment. The 10,000 boxes will be exhausted in a couple of weeks and then the combine will have the market in their own hands. A raise of 25 per cent. has already been made, and the price will go still higher.

**Was Driven to Desperation.**

CHICAGO, July 10.—The body of the man who was shot and killed by Policeman Rosenthal in front of the Auditorium, Monday night, has been identified as that of Charles Gorman, who lived at the Hotel Somerset, Twelfth and Wabash avenue. Monday afternoon Gorman received a telegram from his wife in St. Paul, saying that his baby daughter had died the night before and urging him to come to her. He made every effort to secure money to take him to where his dead baby was, and after repeated failures, in a moment of desperation, he attempted to rob Saloon Keeper McGloin, that he might have funds with which to go to his wife.

**Cuban Insurgents Again Repulsed.**

HAVANA, July 10.—The insurgents have made three attacks upon the important town of Corcorro, in the province of Puerto Principe. The garrison, consisting of 100 soldiers, stationed in a small fort, made a heroic defense and repelled the insurgents upon each occasion. It is said that the latter were commanded by Maximo Gomez, who plundered two stores and burned several houses outside the town.

**Mad Dog Scare at Hazleton.**

HAZLETON, Pa., July 10.—There is a mad dog scare in this place. Residents are almost afraid to venture on the streets at night because of so many mad dogs. Two persons were bitten yesterday afternoon. Charles Schnitzer, aged 6 years, was badly torn about the face, and Thomas Fisher, a West Hazleton grocer, was also bitten. The dog that bit young Schnitzer bit six other dogs before it was killed.

**Two Thousand Persons Homeless by Fire.**

## A HEAT FOR CORNELL.

### The Opposing Leander Crew Did Not Contest the Race.

### MUCH BAD BLOOD ENGENDERED.

**The Leander Crew Denounce the Americans, but the Men of Cornell Are Sustained in Their Action by the Umpire and the Board of Stewards.**

HENLEY-ON-THAMES, July 10.—The first day of the fifty sixth anniversary of the water derby of Great Britain was a disappointment to all concerned. Cornell was pitted against the crew of the Leander Boat club, composed of ex-Oxford and Cambridge oarsmen, and said to be the strongest on the river. There was some confusion at the start, owing to the presence near the starting line of a number of boats, which seriously interfered with Leander. Consequently the latter were somewhat slow in getting into position. Then, when the umpire asked if the two crews were ready, Cornell answered "Yes," and the umpire claims Leander did the same. This the Leanders deny.

In any case, the umpire gave the word "go," and the Cornell crew shot away. But only half the Leander crew started and their stroke protested that they were not ready. In spite of this the umpire allowed Cornell to pull over the course, and awarded the Americans the race. The Leanders lodged a protest against the umpire's decision, and it was referred to the board of stewards. But the board refused to change the decision.

The members of the Leander crew are all wild against the umpire for his decision in favor of Cornell, and in their rage say most unpleasant things against the Ithacan boys.

"It is the greatest outrage that was ever perpetrated on God's earth. The attempt to put the blame on our boys is a dastardly thing. They could only obey the umpire. Before the regatta we were warned on all sides to beware of the Leanders. 'They will do you in any way possible,' it was said. 'They will run you into the post, as they did the French crew last year.' We were told, even before the draw, that the thing had been fixed that our first race would be against Leander. In our hearts we believe that Leander went to the post determined not to race. We had the best position and had beaten their best time."

Mr Francis, the Cornell manager, said: "Our boys have done just right. It must be remembered that Leander is not the only crew we have to meet. Ever since we have been here we have been unfairly treated by the British press."

Umpire Frank Willan, after the meeting of the stewards last evening, said: "I could not do differently than send Cornell along. I myself and Mr. Goldie, my assistant, both saw that the crews were ready. I gave the word 'go,' and both seemed to start. Then came calls from the Leanders: 'No, we are not ready.' Had I ordered the Cornell crew back they might say that, because they were ahead at the start, the English umpire recalled them to favor their opponents."

This version of the occurrence can be confirmed by the correspondent of the Associated Press, who witnessed the race from the umpire's boat.

Sporting Life says: "Mr. Frank Willan, acting umpire, has offered to give a prize to the value of £100 for a Leander-Cornell race on the day the regatta closes. It remains to be seen whether the offer will have any result."

The following is a summary of yesterday's events:

Grand Challenge Cup—First heat: Trinity Hall, Cambridge, beat the London Rowing club easily by four lengths in 7.56. Second heat: Eton college beat the Thames Rowing club easily in 7.31½. Third heat: Cornell rowed over the course in 8.11.

Thames Challenge Cup (eights)—First heat: St John's college, Oxford, beat the Thames Rowing club by a length and a half in 7.57.

Second heat: Norous Boat club, Amsterdam, beat Lady Margaret, Cambridge, easily.

Visitors' Challenge Cup (triple sculls)—First heat: Trinity Hall, Cambridge, beat Catus college, Cambridge.

Steward's Challenge Cup (fours)—First heat: London Rowing club beat the Argonaut Rowing club, of Toronto, by two feet only.

Silver Goblets (double sculls)—First heat: The Thames crew beat the Lady Margaret, Cambridge, crew. Second heat:

C. W. Kent, stroke of the Leander crew, said to a representative of the Associated Press: "An English crew would never have gone on. Had they any spirit of sport in them they would row again. Our boat was pointing into the island and half the men were backing water. I had my hand raised in the air towards the umpire when he asked, 'Are you ready?' We all cried 'No, no.' I have rowed in many races, and I never met with such unsportsmanlike conduct. We had not heard the umpire say 'go' when the mess was made. I never want anything more to do with Americans or American crews."

A determined effort is being made by the Britishers, led by the Leanders, to place the Cornell crew in the wrong, and put the whole responsibility for the outcome upon their shoulders. The Leanders and their sympathizers ignore the decision of their own umpire, which is upheld by the decision of the stewards. The general cry is: "Damn America and Americans." As a matter of fact, the Cornell crew are not only strictly within their rights, but, in view of the umpire's orders, they could not well have done otherwise. It would have been a pretty quixotic thing had they disobeyed the umpire and returned to the post, but meantime Leander would [illegible] have gone on and won the race [illegible] Leanders who are showing a most [illegible]manlike spirit, and in every way [illegible] discredit the Americans.

[illegible] S. White, a nephew of ex-[illegible]e, of Cornell, [illegible] Associated [illegible] died

London Rowing club beat New college, Oxford.

Diamond Sculls—First heat: Guy Nickalls rowed over the course, his brother Vivian having scratched. Second heat: Hon. Rupert Guinness, Leander Boat club, beat H. F. Thompson, of the Argonauts, of Toronto. Thompson was well in front at the start, but ran into a pile.

## WHOLE FAMILY DROWNED.

**Father, Mother and Three Children Meet a Watery Grave.**

PENN YAN, N. Y., July 10.—On Lake Keuka yesterday Perry Tufft, his wife and three children lost their lives by the capsizing of a sailboat. When Mr. Tufft and his family started they were advised not to go, as the lake was very rough. Not heeding the advice they started in a small boat with a "mutton leg" sail.

Their boat was found drifting with a string dragging behind, to which was attached a toy boat that one of the children had with it. The string was tangled up around the bodies of all three children. The bodies of the father and mother were recovered shortly after the mother having one of her children clasped in her arms. The children were all under 12 years of age.

During Mr. Cleveland's absence Mr. Thurber arrived at Gray Gables from Marion, bearing some official documents, but not finding the president he left the papers and returned on the next train. The evening report from Dr. Bryant is that matters are still progressing finely with Mrs. Cleveland and the baby.

## THE CRISIS IN CANADA.

### Rumored Resignations of French Canadian Ministers.

### RESIGNATIONS WERE CONDITIONAL.

**It Is Now Believed the Catholic Members Will Withdraw the Resignations and Resume Their Seats—The Government Sustained by the House of Commons.**

OTTAWA, Ont., July 10.—A considerable ministerial crisis has developed in the dominion parliament over the Manitoba school question. Rumors of the resignations of Hon. J. Ouimet, minister of public works; Sir Adolphe Caron, postmaster general, and Hon. A. R. Angers, minister of agriculture, have been in circulation. These three ministers are the only French Canadians in the cabinet, and they were said to have resigned on account of the government's policy of delay in the matter of remedial legislation for Manitoba.

The French ministers, backed up by the twenty-seven French Canadians in the house of commons, have all along been demanding remedial legislation. When the cabinet first decided to negotiate with Manitoba, with a view to arriving at a concession, the three French ministers threatened to resign, and went so far as to hand their resignations to Sir Mackenzie Bowell, the prime minister. These resignations were handed in with the understanding that they were not to be acted on until Sir Mackenzie heard further from the Frenchmen.

Yesterday afternoon, in the house of commons, Hon. Wilfred Laurier, leader of the Liberals, moved as a resolution of want of confidence the adjournment of the house, claiming that the resignation of the French ministers indicated that dissensions in the government made it unworthy to carry on the affairs of the country. This resolution was voted down by 111 to 72. The Liberals expected the French Conservatives to vote against the government, but only one of them, Mr. Lepine, labor Conservative of Montreal, voted with the opposition.

In the senate Sir Mackenzie Bowell said he had nothing to say regarding the rumored resignations. It is understood that the three ministers will reconsider their decision and will withdraw their resignations, which have not been accepted. They will, it is said, return to their seats in the cabinet.

The session will probably erminate on Saturday, though the Liberals will attempt to defeat the government with the aid of the French Tories.

That boodling, or attempted boodling, has marked the progress of nearly every important bill through the assembly there is plenty of evidence. There should be a thorough investigation."

## THE RIVER BROKE ITS BANKS,

**And the Streets of Salina, Kan., Are Traveled in Boats.**

SALINA, Kan., July 10.—The Smoky Hill river broke over its banks and a large part of the east part of the city is under water. Riddall park was first flooded, and the waters flowed rapidly. On Iron avenue, the principal business street of the city, the water is from one to four feet deep for half a mile on the east side, extending east from Front street. Many people have already been driven from their homes, and boats are running in the streets. The river is still steadily rising, and if it gets six inches higher a hundred people will be forced to leave their homes.

Between midnight and 2 o'clock in the morning the river rose at the rate of three inches an hour, but since that time the rise has not been so fast. The basements of all business houses are flooded. In the north and west parts of the city the situation is but little better. The water which swept across the country eighteen miles above here into Dry Creek on Monday has been sweeping down and overflowing the surrounding farms. The creek flows but half a mile west of the city, and yesterday the flood rose into the lower part of the town, on the northwest side.

**The Georgia Soldiers' Colony.**

ATLANTA, July 10.—The first settlers in the big federal soldiers' colony to be established in southwest Georgia, organized by ex-Governor Northern, has arrived and are arranging for those who are to follow. P. H. Fitzgerald, of Ohio, reached here last night to pay the first installment of $125,000 on the purchase price of $400,000. The colony has been staked off and its town site, which will be called Northern City, will spring into life in a few months, upon the arrival of the first 15,000 colonists. They are expected to come after the harvest in August, in an immense wagon train.

## MOONSHINE IN PRISON.

**How a Mountaineer Convict Managed to Get Drunk In a State Penitentiary.**

A clear case of moonshining was discovered most unexpectedly today right in the heart of the city of Frankfort and within the walls of the state penitentiary. A few days ago the warden and deputies found a big mountaineer convict near the cellhouse riotously drunk. To say that they were surprised is putting it mildly. They at once set to work to discover upon what he had grown drunk and where he obtained it. The mountaineer got sober and confessed that another convict did it. A negro waiter and assistant cook was found to be the distiller. The mountaineer had told him how to make "beer."

All concerned were examined. The negro said that he made the "beer." He said he used molasses (in the bottom of a nearly empty barrel), corn bread and rainwater. After mixing these in the proportions advised by the mountaineer the mash was allowed to stand eight days. Then a big teakettle was used as a still, and the "run" was made into a big iron pot on the side.

The mountaineer testified that he drank the product of this still, that it was good, and that he took in all 2½ quarts, and that his intoxicated condition was the result.—Louisville Courier-Journal.

**A Pillar of Fire by Night.**

A most wonderful cloud and lightning effect was to be seen the other night by the residents of Boston as they looked toward the east. A huge pillar of clouds stood almost still, as it seemed, for half an hour, and nearly incessant lightning illuminated it from within. The cloud seemed fairly alive with fire. Now a quick glow lighted up the pillar and set in relief the layers of white clouds that made up the large mass. Now a sudden flash of crooked light cut the air, and disappearing as suddenly as it came left the mass of vapor dull and gray again. It seemed like an immense forge, the flames from the charcoal fire, thrown aloft by a sudden breath from the bellows, casting a lurid glare throughout the smoky shop.—Boston Transcript.

**Will Bring Europe Nearer.**

An invention has appeared which would seem to make possible the plan, rejected as impracticable by the marine congress at Washington, to establish ocean paths for all vessels. This invention consists of an electric steering indicator, and its introduction promises to have considerable influence on the art of navigation. The apparatus indicates constantly in all weathers the longitude, latitude and course of a vessel at sea, making its own correction for compass variations. If this invention should fulfill its promise, one of its direct results will be that the trip of a fast steamer between New York and Liverpool will be shortened five or even ten hours, from the possibility of maintaining an absolutely straight course.—New York Times.

**Does it Pay to be Sick?**

Besides the discomfort and suffering, illness of any sort is expensive. Hundreds of people consult the doctors every day about coughs and colds. This is better than to suffer the disease to run along, but those who use Otto's Cure for the throat and lungs do better still. It costs less and the cure is certain. ## AN ELECTRIC BLUFF.

HOW A GENIUS REASSURED THE HOTEL MAN AT JAYVILLE.

**Quick Work at the Long Distance Telephone, Which the Landlord Had Not Been Acquainted With Very Long—Draft Cashed and Dinner Thrown In.**

"Did I ever tell you about the great bluff I invented and worked off on a country hotel proprietor?" asked Meekin, the lazy inventor, as he tilted back his chair and lit his pipe. "It would have been blamed inconvenient for me if I hadn't brought my inventive faculties to bear on the subject, and if I had neglected to observe the new telephone. It came about like this: I was making a flying trip through the west in search of a man who was said to have invented a process for tempering copper by electricity. One evening about dinner time I reached an Indiana town which I'll call Jayville, as the town is still there, and so is the hotel proprietor. I rushed into the only hotel in the place, asked for some dinner and was shown to the dining room after I had registered. I wanted to catch the 9:13 train for Indianapolis, so I could spend the night there. When I had finished my meal, I fished around in my pockets for a dime to tip the waiter with. I found I hadn't a blooming cent in my clothes. You know I'm careless about money matters, and never think of lucre until I'm out of it. Well, I hadn't any cash, but I had a $50 draft on New York in my pocketbook. I let the waiter go without his tip and walked out to the office, where I found the landlord. I ostentatiously took up a pen, asked the landlord his name, and made the draft payable to him.

"'Now,' said I, 'if you'll kindly take out the price of a dinner and give me the balance of this $50 I'll be obliged.'

"The landlord read over the draft forward, backward, sideways and upside down. Then he held it up to the light. At last he looked at me sharply and said:

"'Your name Meekin?'

"'Sure thing,' said I.

"'T. J. Meekin?'

"'Sure.'

"'How do I know it?'

"'You don't, but I'm telling you,' said I.

"'How do I know you ain't one o' these yere flim flammers?'

"'You don't. Do I look like a flim flammer?'

"'Waal, ye mought an ye moughtn't,' was the landlord's encouraging reply. It was getting near train time, and I was getting nervous. In glancing around the office with the faint hope that I'd see some one I knew, my glance fell upon a long distance telephone over in the corner. Right here was where I invented my bluff in Jayville at 8:45 p. m.

"'See here, Mr. Man,' I said to the landlord, 'you know a bank draft when you see it, don't you? Well, that's a bank draft. Now, it don't make any difference to you who I am if I can prove that the draft's good, does it? All right. I see you have a telephone. Can I use it?'

"'Ye can if ye know how to work the thing. Just put her in yistiddy, an I ain't on to the game yit.'

"'All right,' I replied. 'Now you come over here to the telephone with me, and I'll soon satisfy you that your suspicions of me and this draft are all wrong.'

"We went over to the 'phone; the landlord leaned up against the wall watching my every movement. Luckily no one was around but an old man asleep near the stove and a stupid German porter. I picked up the receiver without ringing, and this is what the landlord heard:

"'Hello, central! Gimme New York. Hello! This New York? Gimme 3833 Cortlandt. Hello! 3833 Cortlandt? Manhattan Exchange National bank? Mr. Crandell there? Hello! This you, Crandall, old man? This is Meekin. M-double-e-k-i-n. Yes, Meekin, T. J. How are you? Say, I'm in Jayville, Ind. Hotel man says your draft number 347 on my account is no good. How about it? Well? Good for $5,000, is it? Sure? You are, eh? Good joke on your old bank, ain't it, Crandell? Cost you a bottle when I get back. Sure it's good, are you? Ha, ha! That's good. Well, so long. See you next Monday.'

"With that I hung up the receiver without ringing off, and turned to look at the landlord. His eyes were bulging out, and when I asked him if he required any further proof he gasped out:

"'Waal, I swum to gracious! Ef that ain't the finest thing I ever see! Talking to New York, eh! Waal, I never thought to see it. Fetch me over here and get yer cash. The dinner's on me. Never see anything so wonderful since the circus was here last.'

"I took the money, thanked him and nearly laughed myself into hysterics all the way to Indianapolis."—Electrical Review.

The editor of a leading paper writes: "If you had seen my wife last June and were to see her to-day you would not believe she was the same woman. Then she was broken down by nervous debility and suffered terribly from constipation and sick headache. Bacon's Celery King for the nerves made her a well woman in one month." John J. *Gentlemen:*—I have used tobacco for over twenty-five years, chewing and smoking every day from 7 a. m. to 9 p. m., stopping only for meals

On Monday, February 4th, I called at your office in Springfield, and bought a bottle of the Cure which I used as directed, and on the tenth day the desire for tobacco had left me and it has not returned. I did not lose a meal while taking the Cure. My appetite has improved and I consider Narcoti-Cure a grand thing.

Very respectfully,

A fellow bet us last January that there wouldn't be two houses on Richmond Hill in a year. We took him down one day and showed him fifteen on one street, and he was actually sorry he lost. He ought to have been glad that there were that many new houses in the city. There are quite a few of that kind of folks in town. They never laid a brick or a shingle to help make a greater Middletown. They simply hang around and "wear a wearied look." We take some pride in the knowledge that we have aided in

made and widened a few more streets, and thus helped toward the 20,000 population that will soon be with us. The streets on Richmond Hill are 60 feet wide, some of the lots are 190 feet deep, and all are 50 feet front.

## CHARGES ILLEGAL FARE.

**Proceedings Against the Newburgh Electric Road to Compel Compliance With the Railroad Law.**

The Newburgh Electric Railroad regards the Haines cross roads at West Newburgh as the terminus of its city line, and has been charging an extra five cents for a ride beyond that point. Under the general railroad law one five cent fare is all that can be charged within the limits of the city, and Clarence Moss, clerk in C. L. Waring's law office, and S. P. Bigney, student in A. H. F. Seeger's office, knowing of the law, refused to pay extra fare and were ejected from a car, and propose to bring suits for damages.

Mr. Waring, as attorney for interested parties, has notified the railroad company that if extra fares are collected an appeal will be made to the Railroad Commissioners for the enforcement of the law.

**Port Jervis's Fourth of July Committee $50 Short.**

When the Executive Committee on Port Jervis's Fourth of July celebration had audited all its bills it was found that the amount was $50 in excess of the fund raised for the purpose. ## BRUTAL KENTUCKIANS.

**Father and Son Murdered in the Presence of the Family.**

PRINCETON, Ky., July 10.—A mob of masked men went to the residence of Joseph Howton at Lewiston, eight miles from this county, and murdered him and his son, Howlet Howton. In response to a knock at midnight the younger Howton went to the door, and after talking a minute or two was seized and pulled outside and shot through the body. The mob then dragged him to the gate and shot him seven times.

After they had finished him the gang went to the house, and the white haired father begged that they spare his life and the lives of his family, but his entreaties were unheeded, and they made him back up into a corner so they could shoot him without danger to his wife and daughter. The leader deliberately counted ten and then fired at the old man. One ball struck him in the wrist, another in the abdomen and the third in the groin.

The men then left the house, taking with them a boy who worked on Howton's farm. They carried him to a vacant building and fastened him, telling him they would kill him if he attempted to escape before daylight.

One of the women was so badly frightened that she was utterly prostrated, and her death is looked for.

There is no theory as to the cause of the mob's action. The Howtons were quiet, inoffensive people, and stood well in the community. If the murderers are caught they will be lynched.

**Preparing for a Big Clothing Strike.**

PHILADELPHIA, July 10.—Henry White, of New York, general auditor of the United Garment Workers of America, is in this city to install Local Union 110, Clothing Cutters of Philadelphia. Mr. White said today: "The tailors of New York city, 20,000 in number, who belong to this organization, are preparing for an immense strike for the renewal of their agreement with the contractors over the sweating system. The agreement to abolish this system was obtained last September and will shortly expire. The contractors have formed an association and declare they will not renew it. The union will not only insist on the renewal of the agreement, but also on the reduction of the hours of labor from ten to nine."

**The Situation at Bluefield.**

BLUEFIELD, W. Va., July 10.—Yesterday was a busy one with the miners, who held three meetings. Monday night some one fired into the camps at Crozer's mines, and the lime and powder house was burned at Ashland. The offenders have not been caught. The belief is that the leaders of the strike have advised peace for a time to prevent the calling out of the soldiers, but if any new men come in trouble will be precipitated at once. The companies' operations are closely watched by the miners, and every train is examined to see that no new men come in.

**Cambridge Men Will Come Over.**

NEW YORK, July 10.—A. B. CHICAGO, July 10.—Practical steps have been taken in Chicago for the erection of a tower attraction, designed not only to rival but to outdistance the Eiffel creation. The tower will be 1,150 feet in height and 350 feet at the base. Three thousand tons of steel will be used in its construction. It will be 140 feet from the base to the first landing, 340 to the second, 640 to the third and 1 040 to the fourth. Above this will be a dome, ornamented by a flagstaff, 1,150 feet from the base. The elevators will be operated by electric power, and electric displays on and around the tower will be wonders.

**Forgery by Wholesale.**

URBANA, O., July 10.—The affairs of Z T. Lewis, the broker, are causing a big sensation here. Forged bonds have already turned up to the amount of $56,000. It is believed the amount will reach over $100,000. Twenty thousand fraudulent bonds are known to be in existence from Highland county, 20,000 Kenton city school bonds and 10,000 Tippecanoe city school bonds. Lewis suddenly disappeared Monday night, and all traces of him are lost.

**A Lively Fourth—A Busy Village—Summer Boarders—Who Is Neglectful?—A Bad Piece of Road—Sudden Deaths—Other Notes.**

Correspondence ARGUS and MERCURY.

—The Fourth of July was celebrated in great shape here by the boys, and men too for that matter. In fact they all had a lively time.

—Who stole the fish? This is what a Middletown fish peddlar would like to have answered.

—We had numerous fine showers during the past week, which made haying very tedious work.

—A. J. Nunmaker was at Ellenville on Saturday last, and reports business lively there. The cutlery shop and other manufacturing concerns have started up and are running on full time.

—Mr. Godfrey and Mr. Smith have quite a number of boarders. The weather has been rather cool and moist for a rush in the boarding business.

—Our road machine still remains unrepaired. Whom shall we blame for the neglect? It is much needed and should be used now while the earth is in a soft condition from the recent rain.

—Farmers have begun to cut their rye and wheat, both of which promise large yields.

—Oats being very heavy this season, the rain has caused some fields to lodge quite badly.

—If the parties who worked the road near Usterville had to pay for the numerous springs broken there, they could probably answer the always unanswerable question, "What did you do with your summer's wages?"

—Jack Shultz has traded horses again and now has a trotter.

—On the 5th of July, Mr. Hulseapple, an old man, was found on the roadside between here and Bloomingburgh suffering from what is supposed to have been an apoplectic stroke. He was taken home and died soon afterward. He was the father of the Hulseapples of this vicinity, and was about seventy years of age.

—Why do they call them bloomers? I do not see anything blooming about them.

—Mr. J. Scott, from Sing Sing, has been here visiting parents and friends. He is employed on an extensive farm below Sing Sing.

—It is announced that our village band will give a free concert on their grounds, next Saturday evening. All are invited to attend. There will be an abundance of refreshments of all kinds. Come one, come all, and have a good time.

**Bought a Wife for $50.**

Edward Earle, sixty years old, of Tappan, Rockland county, was arrested, Saturday, charged with burglary. On his examination he said he had a wife, much younger than himself, whom he had bought a few weeks ago of her former husband, Frank Carson, for $50. He did not pay cash, but pledged his pension money, $6 a month, until the woman was paid for. He said it was big money to pay for a woman, but this one was worth it.

WEDNESDAY, JULY 10, 1895.

Though it is midsummer, the coldest kind of cold chills run up and down the spinal column of Governor McKinley as he reads that the Rhode Island woolen mills have granted a general advance in wages of from seven to twelve per cent.

Seven hundred employes in the big worsted mills at Oswego Falls were agreeably surprised, yesterday morning, by finding notices posted in the mills announcing that wages in all departments had been advanced from five to twenty per cent.

Kentucky is not noted for startling departures from established custom, yet once in a while she astonishes the world. She was the first American State to grant any form of suffrage to woman, and now she has inaugurated another radical measure, and a jury composed entirely of women has been empanelled to sit upon a breach of promise case.

The new constitution provides that only those who have been citizens for ninety days shall be entitled to vote, and Chapter 927, of the laws of 1895, provides that final applications of aliens for citizenship shall be filed in court at least fourteen days before final action on them can be taken. These requirements compel an alien to be a citizen 104 days, and since between now and Nov. 5, election day, there are only 119 days, but fifteen days remain in which aliens can qualify themselves to vote.

Chairman Hinckley, of the Democratic State Committee, has asked the members of the committee to authorize the appointment of a subcommittee to inquire into the condition of the party in Monroe county, and to adjust, if possible, the differences between the Cleveland and Hill factions, which are warring for supremacy. Chairman Hinckley's action was taken after consultation with prominent Democrats, and is the beginning of a movement looking to the harmonizing of all factional feuds and a real "getting together" of all Democrats.

The unexpected appointment of Editor Charles J. Boyd to a place on the State Prison Commission is plausibly explained by the *Independent Republican*, which suggests that Boss Odell secured the job for him in order to get rid of him as a candidate for Member of Assembly in the new "Fish Hook District." Mr. Boyd having made an unsuccessful run in the old Assembly district, and having been one of the Supervisors who put through the gerrymander, was supposed to have a sort of mortgage on the nomination in the new district, and might have interfered with the boss's plans, and so Mr. Odell shelved him by giving him the prison job.

Although Judge Gaynor has sometimes seemed fond of making "grand stand plays" from the bench, the reasons which he gives for granting ex-Police Inspector McLaughlin a stay are cogent and unanswerable. Judge Gaynor's opinion is really a plea for the decent and orderly administration of justice, and he well says that "one who cannot be convicted by fair play should not be convicted at all," and that the rights of the individual must be held inviolable, especially in the face of popular clamor, for "they alone stand between law and tyranny, whether executive or judicial."

**The Erie Wants More Time**

The receivers of the N. Y., L. E. & W. railroad have applied to the Inter-State Commerce Commission for an extension of time within which to comply with the law requiring roads to equip their freight cars before July 1, 1895, with safety appliances. The application has been set for hearing before the ... Washington on the ...

## CORNELL BEATEN BY TRINITY HALL.

**The American Crew Beaten with the Greatest Ease—Fennell, of the Cornell Crew, Overcome by Exhaustion.**

BY UNITED PRESS.

HENLEY, July 10.—In the second trial heat for the grand Challenge Cup the Trinity Hall crew beat the Cornell eight with the greatest ease, going over the course in seven minutes and fifteen seconds.

A strong wind was blowing off the Bucks shore and made the position of Trinity the better position of the two. When the umpire gave the word Cornell started at forty-six strokes to the minute and Trinity at forty-two.

Cornell was leading by a few feet at the quarter and at Fawley Court they were three-quarters of a length in advance. Trinity now gained and at the mile had closed to a quarter length and at the Isthmian boathouse had passed and was a few feet in the lead.

Just here confusion appeared in the Cornell boat and a moment later the men stopped rowing. Fennell, who had showed signs of exhaustion at the half mile, now fell in the boat and the man behind him began bathing his temples. Trinity immediately drew away at a wonderfully fast pace.

Cornell's boat was towed to one of the boat houses, where the crew was received with cheers, and Fennell was placed under a doctor's care. He did not faint but was merely overcome by exhaustion.

Cornell's time to Fawley Court was three minutes and twenty-three seconds.

The New College (Oxford) eight beat the Eton crew by a length and a half in the latter's second trial heat.

Commenting on to-day's contest between Trinity Hall and Cornell, the *Pall Mall Gazette* says: "Never was there such a victory as when the Trinity Hall boat won ten lengths ahead of Cornell. The form of the Americans gradually deteriorated after they passed Fawley Court."

## A JILTED LOVER'S REVENGE.

**Rose Finn Shot Down on a Street Corner—Her Murderer Arrested.**

NEW YORK, July 10.—Rose Finn, nineteen years old, was murdered this morning by Michael McGowan, her jilted lover. He stopped her at the corner of 12th avenue and 29th street, as she was on her way to work, talked with her for a few minutes and then, drawing a revolver, fired two bullets into the girl's head. He then ran, but a policeman caught him after a short run.

## BURNED TO DEATH IN A BARN.

DETROIT, July 10.—By the burning of Case's livery barn, on Congress street, early this morning, five and possibly six barn men lost their lives.

The men were on the fourth floor of the barn, and their escape by the stairs was shut off and they were suffocated.

Strangely enough, out of seventy-two horses in the basement, all were saved but two.

# FACE LIKE A BURN

**Bloody Water Oozed Out Constantly. Sufferings were Terrible. No Peace Day or Night from Itching and Burning. Doctors Failed. Cured by CUTICURA.**

My child's disease, which was the worst kind of Eczema, started on one cheek like a ringworm. It spread and itched so the poor little fellow had no peace night or day. Then it started on the other cheek and chin, until all were raw as a piece of beefsteak, like a burn where you would rub off the skin, and bloody water oozed out constantly. His sufferings were terrible. I tied his hands that he would not scratch, then he would rub his poor little cheeks on his shoulders to relieve the intense itching. I had as good a doctor as was in Philadelphia, but he failed to relieve him. I read of the CUTICURA REMEDIES, and at once purchased them. Strange to say, *that very night he rested* without scratching his face, and from that on he improved and *soon was entirely cured*. I would like anyone suffering from this terrible disease to see my boy now, his complexion is as clear and smooth as can be. This is an unsolicited testimonial, and every word is true. I thank God for my child's recovery, and I thank the manufacturer of CUTICURA.

**SERIOUS RUNAWAY ACCIDENT.**

**C. J. Everson's Horse Hurt and J. V. Z. Anthony's Wagon Wrecked.**

Mr. J. V. Z Anthony's horse ran away from the stable on West Main street this forenoon, with the wagon attached to him. When he got into the street the wagon collided with Mr. C. J. Everson's delivery truck.

This thoroughly frightened the animal and it dashed down West Main street through Wickham and Linden avenues to the residence of Judge Groo, where it was stopped after it had nearly demolished the wagon.

In the collision on West Main street the shaft of Mr. Everson's wagon was broken and one of the tugs breaking at the same time let the horse just far enough forward for the jagged end of the shaft to strike against its hip and, in its efforts to get out of the way of the shaft. It was struck several times and each time an ugly wound was made. It is believed, however, that they are only flesh wounds and no serious results will follow.

**A MISHAP TO WHEELMEN.**

**They Run Into the Unfilled Portion of the North Street Crossing and All Take a Tumble.**

Last night, when the wheelmen were returning from Bloomingburgh, four of them were thrown from their wheels on the North street crossing of the Erie. Only a portion of the crossing had been filled in with crushed stone, and where it had not been the hollow was several inches deep.

There was a red light on one side of the street which they supposed indicated that some of the asphalt blocks had been removed, and before they were hardly aware of it four men and wheels were piled in a heap between the rails.

Although none of the young men were seriously hurt, they were more or less bruised, and the wheels slightly damaged.

We understand red lights were placed on both sides of the Erie tracks, last night, but one of them had gone out before the wheelmen reached the spot.

**THE ASYLUM LINE**

**It is Not Built by Cornelia Street Damages Will be Claimed From the Traction Company.**

Secretary Wightman of the Middletown-Goshen Traction Company has received the following letter which explains itself:

*Mr. E. G. Wightman, Secretary,*

DEAR SIR:—In regard to the extension of your lines to the State Hospital, I am informed that a proposition has been made to your company, by parties interested, to induce your company to make crossing of the Erie railroad at Summit street or avenue.

I wish to say to you in this connection that myself and other subscribers to the fund to remove the Williamson house on Bonnell street, regard the agreement made with you, viz, to cross the Erie railroad at Cornelia street, as binding, and should you fail to make the crossing at this point we will hold you for the amount of our subscriptions, value of time, and damages, and the amount of damages thus demanded would probably equal any cash subscription obtained by going the other route.

Yours respectfully,
A. V. EOAK

**Were Fond of Ice Cream Soda.**

A young man and young woman, evidently city boarders, and who had probably been for several days several miles from a soda fountain, came to town yesterday morning and lining up before a fountain each got away with four glasses of ice cream soda, assorted flavors. Even then the man wanted more, but the girl said she had had enough.

**Hone Down Highland Avenue,**

No camel's back is as humpy as is this favorite thoroughfare of pleasure drivers. This reminds us that before this town took upon itself municipal honors it invested in a road scraper. The query is what has become of the aforesaid scraper? Worn out it has not been. Rusted out it may have been. However, if it is still hanging together, here's an opportunity for it to do good service. So if the old thing will work set her a'going on Highland avenue, Mr. Superintendent Reed, and earn the thanks of a large number of your fellow citizens.

**Some Local and Personal Notes—A Visit from a "Perfect Gen'leman."**

From a Special Correspondent.

—Mr. and Mrs. Henry Baconhave gone to Niagara Falls for a short time.

—Miss Julia Grier and her brother Jack returned Saturday evening from the Catskills, where they have been spending the Fourth.

—Mr. Augustus Ireland, of Fultonville, and Miss Marie Ireland, of New York, spent last Sunday with Mrs. A. C. Ireland at her place at Crystal Run.

—A member of the 400, at least an individual describing himself as a perfect gen'lemen, made things pleasant for people living on South street, yesterday, between the hours of 12 and 4 a. m. At one house which he honored, he caused some alarm to the inmates who were of the gentler sex for, after trying all of the piazza chairs in turn- like little Goldenhair in the story of "The Three Bears," he attempted to enter the windows, evidently under the impression that he was at home. Failing this he seated himself in a rocking chair with the remark, "Well, they won't let me in, suppose I've just got to sit up all night." He then indulged in a soliloquy that was longer and much more profane than that of the late lamented Hamlet, occasionally pausing a moment to remark, "I'm the boss of this place every time,"—a fact which no one ventured to dispute. He seemed to be under the impression that he had a companion, to whom now and then he would call out, "Come here, come here, I say, and if you want to see a perfect gen'leman look at me!" No one responding to this tempting invitation, the "perfect gen'leman" finally arose with the exclamation: "S'all a mistake, t'aint my house at all, I beg their pardon," made a low bow in the direction of the house and went away to exhibit his good breeding on various other verandahs in the neighborhood much to the relief of the inhabitants of this particular house, who happen to prefer that their caller should come earlier in the evening, and enter by the door.

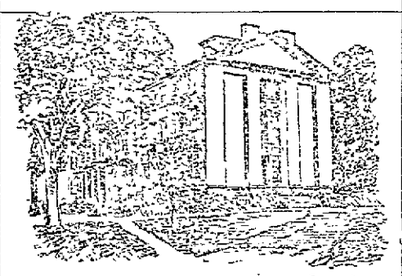
# ONE HUNDRED YEARS.

THE UNIVERSITY OF NORTH CAROLINA CELEBRATES ITS CENTENNIAL.

**It Is Probably the Most Economically Conducted College in the United States, and It Has Graduated Some of the Most Eminent Men of the Land.**

As an institution of the higher education, the University of North Carolina, at Chapel Hill, may not be very well known outside the south, but in those states which lie on the sunny side of Mason and Dixon's line, and particularly in its own state, this university is known and honored of all men.

Especial attention has recently been called to this seat of learning by the centennial celebration which was held on June 5. The exercises of the occasion took place in Memorial hall, a large and handsome auditorium of hexagonal shape, 134 by 138 feet in extent in its greatest dimensions, 64 feet high, and capable of seating 3,500 persons. This hall was erected by the alumni in memory of the university's eminent dead, and especially those who were killed in battle during the war. The names of the latter are inscribed upon four large mural tablets behind the rostrum. There are 264 names in this list, which is larger than the list in Harvard Memorial hall, and since the tablets were put up 23 additional names have been discovered by Dr. Stephen B. Weeks, to whose indefatigable energy the existence of the tablets and the list is due. These names are arranged by classes, the first one be-



OLD EAST BUILDING, UNIVERSITY OF NORTH CAROLINA.

ing that of Bishop Leonidas Polk of Louisiana, lieutenant general, of the class of 1821, while the last is that of a beardless boy of the class of '65.

Next to William and Mary, the University of North Carolina is the oldest college in the south. James K. Polk, president of the United States; William H. King, vice president; Thomas Hart Benton, author of "Thirty Years In the United States Senate;" General Francis P. Blair, Zebulon B. Vance, General M. W. Ransom, Francis L. Hawks, president of the American Geographical society, and scores of other men who have played prominent parts upon the stage of life in America were among the graduates of this university.

When the war broke out in 1861, the students and professors of the University of North Carolina very quickly showed themselves to be made of soldierly stuff, for within a few weeks the university's halls were nearly deserted, about seven-eighths of the entire student body entering the Confederate army as volunteers at the first call for troops. Of one large class, indeed, but three remained to finish out the course. Upon almost every field of battle in the great contest between the north and the south were found these student warriors, for they came from every state of the Confederacy and were scattered from Texas to Maryland and from Virginia to Missouri.

Notwithstanding the general exodus of students and faculty to take part in the civil war, the university survived that struggle, though but a few dozen youngsters and a half dozen professors remained within its halls to keep the lamp of learning alight. In April, 1865, Kilpatrick's cavalry encamped on the college grounds, but the exercises went on, and before the cavalry left—its stay extending over several months—General Atkins fell in love with and married the daughter of the president. After the war, during reconstruction days, the college was closed for a time, but in 1875 it was reopened with seven professors and 60 students.

At the present time there 470 students and 35 professors and teachers. Fifteen states are represented in the student body, while the faculty is composed of professors from a dozen different American and German universities. George T. Winston, the president, was graduated from Columbia in 1874, where he was a college mate of John DeWitt Warner, J. C. Harding and J. B. Franker. Winston joined the faculty of the University of North Carolina in 1875 as an assistant professor of literature. At the end of the year he was made professor of Latin, and in 1891 was unanimously elected president. He believes in college discipline, but maintains it rather by force of student sentiment than by harshly exercised authority. He is a native of North Carolina.

In one respect no other this university is without a parallel, for no other college probably has ever been able, at least in modern times, to maintain so large a body of students and professors as this upon a total annual income of less than $55,000, nor could it be maintained here were it not that every dollar is closely watched. The expenses of the students, too, are remarkably low, the average of each being not to exceed $250, while those who have scholarships carrying free tuition get through on less [illegible] a year.

HEART DISEASE, like many other ailments when they have taken hold of the system, never gets better of its own accord, but *Constantly grows worse.* There are thousands who know they have a defective heart, but will not admit the fact. They don't want their friends to worry, and *Don't know what to take for it,* as they have been told time and again that heart disease was incurable. Such was the case of Mr. Silas Farley of Dyesville, Ohio who writes June 19, 1894, as follows:

*"I had heart disease for 23 years,* my heart hurting me almost continually. The first 15 years I doctored all the time, trying several physicians and remedies, until my last doctor told me it was only a question of time as I could not be cured. I gradually grew worse, very weak, and completely discouraged, until I lived, propped half up in bed, because I *couldn't lie down* nor sit up. Thinking my time had come I told my family what I wanted done when I was gone. But on the first day of March on the recommendation of Mrs. Fannie Jones, of Anderson, Ind., I commenced taking *Dr. Miles' New Cure for the Heart* and wonderful to tell, in ten days I was working at light work and on March 19 commenced framing a barn, which is heavy work, and I have not lost a day since. I am 58 years old, 6 ft. 4½ inches and weigh 230lbs. *I believe I am fully cured,* and I am now only anxious that everyone shall know of your wonderful remedies."

Dyesville, Ohio. SILAS FARLEY.

Dr. Miles Heart Cure is sold on a positive guarantee, that the first bottle will benefit. All druggists have it at 6 bottles for $5 or it will be sent, prepaid, on receipt of price by the Dr. Miles Medical Co., Elkhart, Ind.

# BLACK HOLE CAVERN.

MYSTERIOUS CHAMBER ON A CALIFORNIA MOUNTAIN.

**Subject of Indian Romance—Explored by a Party—Filled With Dazzling Stalactites and Contains a Peculiar Stream That Rises and Falls.**

Far up on the mountain in a remote place on Mill creek near Ukiah, Cal., is a wooded knoll of peculiar and forbidding shape, wherein is a cave known as the Black Hole. It is only the unsuperstitious who can be prevailed upon to speak of the uninviting spot. Tradition says that long years ago when white settlers were unknown and the Tokayo Indians were in full power a negro, in straying from a ship then lying in the bay of San Francisco, was captured, and by joining the tribe saved his life. Gaining power from his knowledge acquired on board ship, he soon became chief and later one of the most powerful rulers the tribe had ever known, being called the Great Medicine chief.

Everything went smoothly until he fell in love with a dusky maiden of another tribe, whom to marry was death, according to tribal law. The negro was not without enemies, and this was a favorable opportunity to put him out of the way. The council of chiefs finally declared that he must die.

It was at his request that he was taken to the top of this knoll to be executed. During the night he slipped his guard and entered this cave in the hope of finding some outlet. He never returned. It is said that he was butchered during the night by one of the young braves and thrown into the depths, and that he gave a despairing cry as he was being hurled down, the shrill echo of which can yet be heard on nearing the cave.

To explore the unknown depths a party started on a recent Sunday from Ukiah. The entrance to the cavern is at the summit of the range, is surrounded by oak and pepperwood and is reached by the Reeve's Canyon road. Parties by careful driving may go up this way, the only accessible one, as the front is a precipice. The opening to the cavern is about 15 feet in diameter and is funnel shaped.

Lamps, ropes, candles, kerosene, etc., were taken from the wagons, and preparations were soon made for a descent. Mr. Mason agreed to go first. Rocks were thrown down to ascertain, if possible, the depth. They were never heard to strike bottom, but would go rumbling down, down, until they died away in the distance. A bundle of paper was now saturated with kerosene and thrown in and watched with lively interest. Soon an explosion occurred, followed by a scattering of grass, sticks and stones. Then myriads of bats appeared.

Mr. Mason now determined to go below. A rope was tied around his waist, and with a lantern in hand he began the descent. Those above carefully paid out the rope. He was soon down some 70 feet. He asked another to come down also, as the way had landings, and two or more could very easily work their way along. Mr. Mason soon reached 100 feet. Here he found a chamber, from which there were several halls. Selecting what he thought to be the main one, he continued down until the rope paid out marked 185 feet. No weight being felt upon the rope, it was thought Mr. Mason had reached his journey's end.

Immediately a signal was given, and Mr. Mason was drawn up. He said that at a depth of 40 feet the passage was narrow and terraced frequently, but from there on the terraces were less frequent. At the end of his passage he finally emerged into a large chamber about 60 feet in diameter and 20 feet high. From the roof of the cavern hung large stalactites which glistened in the dim light like countless diamonds. Almost in the center of this chamber was an oval shaped depression in the floor of about two feet. This basin was filled with water, intermittently rising and falling with clocklike regularity.—Cincinnati Enquirer.

**A Japanese Eiffel Tower.**

The Japanese are making preparations to erect an iron and steel tower 1,000 feet in height to commemorate their recent victory over China. The tower will be located at Tokyo, and in design will probably follow closely the Eiffel tower in Paris. At the base of the tower a large hall will be built, which will contain a permanent exhibit of Japanese products, while rooms are to be provided in the upper galleries for statues or memorials of Japanese statesmen, warriors and others who have rendered conspicuous service to their country.—New York Evening Sun.

# DON'T STOP TOBACCO

It is Injurious To Stop Suddenly

And don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of the use of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about "BACO-CURO." It is purely vegetable. You do not have to stop using tobacco with "BACO-CURO." It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An ironclad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded.

Eureka Chemical & Mfg. Co., La Crosse, Wis.

Dear Sirs—I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being at least. I tried the so-called "Hockey Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago to-day I commenced using your preparation, and to-day I consider myself completely cured. I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it.

Yours very truly, C. W. HORNICK.

Dear Sirs—I have been a tobacco fiend for thirty-three years, and during the past two years have used chewing tobacco very extensively. My nervous system became considerable. I have often tried to give up the use of tobacco but always failed, until I bought three boxes of your "Baco-Curo." I used tobacco at the same time while taking "Baco-Curo," and after a week I lost the appetite for tobacco—smoking or chewing. I am enjoying better health, and consider your "Baco-Curo" the safest, most harmless and reliable remedy for to break the tobacco habit.

Yours truly, JOHN ROBBINS, Postmaster, Rodden, Ill.

Gentlemen—Last summer I furnished Mr James Reed of the town of Burnside, Trempealeau Co., with three boxes of your "Baco-Curo." He had chewed tobacco for over forty years and the last year used over sixty-five pounds. He commenced using "Baco-Curo" and one box did not have the effect, when he had used about one-half of the second box, he began to lose his taste for tobacco, and when he had used one-half of the third box he had lost all his appetite for it, and is now entirely cured.

Yours truly, J. C. TAYLOR, Druggist.

TO WHOM IT MAY CONCERN.

This is to certify that I, William S. Sawyer of Atlantic, County of Cass, State of Iowa, having been an inveterate smoker of tobacco bought three boxes of "Baco-Curo" Dec. 21 1894. Began taking same according to directions and can say that I am completely cured of the tobacco habit. "Baco-Curo" is simply wonderful and I recommend it to all who are slaves to the tobacco habit and wish to be cured. I am in perfect health and have not felt so well in years. That terrible craving, which every tobacco user has more or less, has completely disappeared and I feel like a new man. Hoping that this may do some one good and lead them to try this wonderful remedy, "Baco-Curo," I remain, Yours truly, WM. S. SAWYER, Atlantic, Iowa.

Clayton, Nevada Co., Ark., Jan. 28, 1 95

Eureka Chemical & Mfg. Co., La Crosse, Wis.

Gentlemen—For forty years I used tobacco in all its forms. For twenty-five years of that time I was a great sufferer from general debility and heart disease. For fifteen years I tried to quit, but couldn't. I took various remedies, among others "No-To-Bac," "The Indian Tobacco Antidote," "Double Chloride of Gold," etc., etc., but none of them did me the least bit of good. Finally, however, I purchased a box of your "Baco-Curo" and it has entirely cured me of the habit in all its forms, and I have increased thirty pounds in weight and am relieved from all the numerous aches and pains of body and mind. I could write a quire of paper upon my changed feelings and condition.

Yours respectfully, P. H. MARBURY, Pastor C. P. Church, Clayton, Ark.

## WHAT MR. KRAEMER SAYS OF "BACO-CURO."

ATLANTIC, Iowa, Feb. 4, 1895.

This is to certify that I, F. D. Kraemer, of Atlantic, Iowa, was an inveterate smoker of cigarettes for more than two years.

About eight weeks ago I bought three boxes of "Baco-Curo." I began taking it according to directions, and after taking one and one-half boxes, all the desire for cigarettes left me, and I have had no desire since.

I can heartily recommend "Baco-Curo" to all who are slaves to the cigarette habit or tobacco habit in any form, and are in search of a cure. I had become so under the influence of cigarettes, I could not remember anything; could not study, unless under the influence of the drug, which is death in the end, if kept up.

Cigarettes are sapping the lives out of more boys and young men to-day, than anything that is known to the world. Boys, before it is too late get some of this remedy that killed the craving for cigarettes in me and save your young life. Restore yourself to manhood. You will feel as though you had escaped an awful doom, and you have, when cured by "Baco-Curo," for you feel like a new being. I never felt better in all my life than at this present writing. I did not know what was the matter with me, until informed by the agent. He told me what was the reason I could not do anything unless under the influence of the death-dealing poison found in cigarettes. I do not believe him at first, until he explained the action on the system. Then I bought the goods and thank God and all concerned, I am a sound person to-day. Hoping this may reach the unfortunate cigarette smoker, I remain. Yours respectfully, F. D. KRAEMER.

## A DOUBTFUL IDENTITY.

**He Didn't Know Whether He Was Moses or Aaron.**

"Yaas, hit wuz veah funny, but we wuz cousins anyhow, an dat's one ting sho.' But 'twas mighty cur'ous, mighty!"

Old Uncle Moses leaned back comfortably in his chair, looked thoughtfully into the fire, and then knocked the ashes out of his pipe, by which I knew he was thoroughly wound up, and in a story telling humor.

"Yaas," he repeated, "hit wuz mighty cur'ous, honey, an I dunno ter dis day ef I'se rightly Aaron or Moses." Seeing a look of astonishment on my face he chuckled a little, and finally said: "I reckon I mought's well begin at de beginnin, an 'plicate all de succumstances ob de case. -o's yo' kin jedge fo' yo'self how hit feel like ter a 'spectacle cullud pusson not ter know ef he's his own self or his cousin.

"Well, hit wuz dis-a-way. Me an Aaron wuz cousins. We's daddies wuz brothers, an we's mammies wuz twin gals wot worked in de gre't house laundery. When we wuz borned, we wuz jes' much alike es ef we wuz two twins, too, so dey dun christen us Moses an Aaron.

"Hit wuz 'long erbout de time when we wuz fo' weeks ole dat massa had de gre't cotton pickin feas'. (In co'se I dun recollec' all dis, but I'se been performed ob hit by 'liable pussons, like Br'er Tomson, or ole Aunt Dilsie' fo' instance, wot's ninety-nine come May.)

"Yo' see, suh, massa he allus guv a big feas' when all de cotton wuz picked an de wuck dun. Ev'ry niggah on de plantation would jes' go crazylike, an lose he head when de corton feas' come. Our two mammies wuz 'mong de veah triffin'est ob de wimmin folks. Dey'd jes' go wil' like, de 'citement wuz so distense.

"Well, honey, de gre't day come at las', an off dey bofe went 'fo' even de fus' banjo soun. Dey lef us in de bed in Aaron's mammy's cabin, an in co'se dat's how come we got mixed. When dey dun return, which wuz mighty late, dey jes set down an laff an giggle twill we claim dey're tention by bustin out er cryin. Den dey pick us up an go on a-laffin twill Aaron's mammy obsurb dat my mammy got her chile. My mammy (she name Lilly) clare dat I is her own chile an remark dat she dun fink Rose (dat Aaron's mammy's name) hed maybe taken er little too much.

"Den Rose she riz up jes' es mad es er hornet, an she sass her back an tell her she er fool niggah ef she ain't know her own chile. While dey still 'sputin de pint Pete (dat's my father) come in ter git he wife an clare out home.

"'Wot's all dis-a-here rumpus 'bout?' say he. Den Rose she up an tole him that Lilly hed took her chile an would persist hit were hern.

"'Dat's not Moses. Dat's Aaron,' said Pete. I reckon I know mo'own son. Jes' yo' han ovah dat baby now, Lilly. I 'spect de feas' dun turn yo' head.'

"The wife begin ter cry, but 'twarn't no use, de chilluns wuz shifted, an she went off cryin wif t'other baby. Well, nex' mornin Aaron's mammy fink she perceive somethin cur'ous 'bout her chile. In co'se she too 'shamed ter say anything 'bout hit, but she feel mighty sho' dat her chile Aaron neber roll he eyes up twill dey disimpear in he wool like dat, an she certain he neber yell all night like er live tormcat. So she insidered an medintated twill she 'bout mek up her min ter go ast Lilly ter'scuse her, an dat 'twas her chile, after all. She dun got 'bout half way, when she spy Lilly invancin ter meet her, totin t'other baby.

"Lilly she wuz reel mad, inclarin her child neber hed de colic nohow, an er lot mo'. But dey settled hit at las' an shifted us ergin.

"Well, tings went smove fo' 'bout er monf, twill Rose she pos'tive she see er insemblance 'tween t'other baby an her husban'. So after some mo' argufyment dey dun go home wif diff'rant chillens ergin. But hit didn't seem ter satis-fy 'em nohow. Bless yo' soul, honey, dey didn't res' satisfied fo' mo'n er week at er time. Dey wuz constant shiftin an shaftin of us, an sometimes de argufyment ob dem two wimmins could be heerd from one end ob de quarter ter de oddes'. We's daddies dey didn't cayah much 'bout hit. Pete he say he ruther like de 'citement, an 'Lias, he 'low one chile wuz es good es t'other, an he couldn't see no diff'unce in dem. 'Twas all veah well when we wuz lil tings, but es we growed ol'er whip hit wuz monstrous infusin ter us es well es to we's mammies. One week I'd be called Moses, an den be swapped round an hev ter 'spond ter de name ob Aaron.

"Well, suh, we live erlong dis-a-way fo' two or tree yeah, 'twill de yaller fevah come 'round 'morg de cullud folks, an er heap er niggahs dun die, an bless yo' soul, honey, one ob dem babies wuz took off ermong dem.

"Dat's de end ob dis narration, suh, but wot puzzles me es which one ob dem chillens wuze took? Did I die an am dis Aaron, or did Aaron die, an am dis me?"—Woman's Progress.

### From the Orient.

"And you say"—

The sultan scowled.

—"that he is the instigator of the revolt, the man who has endeavored to bribe my janizaries?"

The vizier bowed.

"Even so, commander of the faithful," he said. "He is the man."

"He has had a post at court?"

Again the vizier prostrated himself in assent.

"See that"—

The sultan shrugged his shoulders significantly.

"He gets the sack?"

"No."

He mused.

"There ain't going to be any of that buy-partisan biz around here if I know it."

Laughing softly to himself, he lit his hookah and puffed calmly as they bore the shrieking wretch away.—New York World.

**A Dangerous Bridge**

Under what jurisdiction is the bridge on the road leading from Highland avenue to a junction with the Bloomingburgh turnpike? This is a question somebody seeking damages for injuries caused by its tumbling in will ask ere long if the structure is suffered to remain in its present ramshackly condition.

As the road is free to travel responsibility for this bridge rests somewhere.

## UNIONVILLE'S GREAT STRIKE.

**An Abundance of Water of Finest Quality Found at a Depth of Thirty Feet—Five Flowing Wells in Operation.**

The fear of a water famine in Unionville is now at an end. The reservoir did not store a sufficient quantity of surface water and for a time it looked rather discouraging, but the water company purchased a tract of land near the silk mill and drove five two-inch pipes to a depth of about thirty feet when water was found in such abundance that it flowed above the tops of the pipes.

The flow from each of the pipes is about twenty gallons a minute and the water is of the finest quality and of a temperature of about 48 degrees.

A basin has been dug into which the water flows and from this it is pumped into the main and the surplus is forced into the reservoir. The pumping was commenced about a week ago, and there has not been the slightest diminution in the flow.

It is believed that the water comes from a point on the Jersey hills much higher than the village and collects in a bed of sand in the low land.

Not very far from where this generous supply of water is found Mr. Eber L. Brown, some time ago, sank a well to a depth of 600 feet and had only a dry hole to show for the expenditure of several thousands of dollars.

The people now regret that the discovery of water was not made when the New York Milk Company was looking for a site for its condensery for they say they would surely have got it and Johnson wouldn't have been in it at all.

## GREAT RUSH TO MIDWAY PARK.

**The Band Concert and Fireworks Attract One of the Largest Crowds of the Season, Last Night.**

The band concert and display of fireworks attracted to Midway Park, last night, the largest crowd that has visited the Park on any night this year.

**A Troublesome Tramp.**

John Doran, a tramp, claiming to be a railroader from Scranton, was sent to Goshen, this morning, for ten days on a charge of intoxication.
